Frank McClellan : Medical Malpractice: Law, Tactics, and Ethics before purchasing it in order to gauge whether or not it would be worth my time, and all praised Medical Malpractice: Law, Tactics, and Ethics:

0 of 1 people found the following review helpful. Four Stars By Customer Useful 3 of 3 people found the following review helpful. excellent book. By Tibbie If you need to know about malpractice either as a defendant's attorney, the prosecuting attorney, a physician, a business person who employs physicians, or just someone who has been touched in some way by malpractice, then this is the book for you. It thoroughly explains the process, the ups, downs, risks, and strategies that might be deployed to defend or to win a case. It's not a difficult book, nor is it boring full of legal

case analysis. it tells stories and lays out different scenarios. I enjoyed it and it helped me in my own situation.

From practical to philosophical considerations, this presentation of medical malpractice issues serves as a useful resource for the classroom and the reference shelf. It illustrates the multitude of considerations that impact the merit of each case, never losing sight of the importance of preserving human dignity in malpractice lawsuits.
