Joseph T. Smith : Medical Malpractice, Psychiatric Care (Medical Malpractice Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Medical Malpractice, Psychiatric Care (Medical Malpractice Series):

Psychiatric malpractice occurs when either professional engages in misconduct infringing upon the care of the patient in treatment. Additionally, malpractice can result from neglect or the failure to provide professional treatment in the context of the therapeutic relationship. Different forms of misconduct or neglect may include: Failure to evaluate and diagnosis the patient Improper treatment protocols implemented as interventions for the patient or failure to treat Medication mishaps, such as prescribing the wrong medication for the diagnosis given Engaging in physical, verbal, emotional or mental abuse toward the patient Infringing upon the privacy of the patient or breaching confidentiality standards Engaging in sexual relations with the patient or attempting to commit sexual acts with the patient Detaining the patient involuntarily without proper cause
