Maren Heidemann : Methodology of Uniform Contract Law: The UNIDROIT Principles in International Legal Doctrine and Practice before purchasing it in order to gage whether or not it would be worth my time, and all praised Methodology of Uniform Contract Law: The UNIDROIT Principles in International Legal Doctrine and

Practice:

This book examines uniform contract law in all relevant areas of legal doctrine and practice, and considers the barriers which exist toward it in modern nation states, namely in the German and English legal systems. The author suggests ways to overcome these obstacles, and develops an autonomous methodology of interpretation of transnational contract principles. The book analyses existing uniform transnational law rules, such as the UNIDROIT Principles of International Commercial Contracts.

"... Maren Heidemann presents an ambitious study that covers comparative law, conflict of laws, methods of uniform law as well as legal theory. Her work provides a bird's eye view of a very complex field of law.... Anyone wishing to take up this challenge will find an interesting whetstone for their thoughts in Heidemann's treatise." (B. Schinkels, *Unif.L. Rev.* 2008, 895-898)
