**Pamela Lysaght : Michigan Legal Research** before purchasing it in order to gage whether or not it would be worth my time, and all praised Michigan Legal Research:

0 of 0 people found the following review helpful. Informative, short concise!By MichiganI took the time to read this entire small book (as opposed to just covering the highlights or referencing sections) and found it chocked full of good resource tips. It's not entirely comprehensive (wish it would have included treatis references), but it's a good place to start especially for a new law student, paralegal, or legal secretary.
