David Wiggins : Needs, Values, Truth: Essays in the Philosophy of Value before purchasing it in order to gage whether or not it would be worth my time, and all praised Needs, Values, Truth: Essays in the Philosophy of Value:

Needs, Values, Truth brings together of some of the most important and influential writings by a leading contemporary philosopher, drawn from twenty-five years of his work in the broad area of the philosophy of value. The author ranges

between problems of ethics, meta-ethics, philosophy of mind, and philosophy of logic and language, looking at questions relating to meaning, truth and objectivity in judgements of value. For this third edition he has added a new essay on incommensurability, in addition to making minor revisions to the existing text. The volume will stand as a definitive summation of his work in this area.
