New York Family Law Strategies is an authoritative, insider's perspective on the best practices for handling matrimonial and family law cases in the state of New York. Featuring partners and founders from some of the state's leading family law firms, these experts guide the reader through the most common family law issues, including divorce, child custody, and child support and alimony, and the approaches that lead to success in overseeing these cases. Emphasizing the role mediation and collaborative law can play in the process of family law disputes, the authors examine the steps involved in preparing clients for divorce proceedings and working toward agreements on child custody and financial assets. From utilizing expert witnesses and law guardians to communicating with the spouse's counsel, these leaders illustrate the strategizing process a New York family law attorney must go through in order to best serve a client. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts around the keys to navigating this sensitive area of law. *Inside the Minds* provides readers with proven business intelligence from C-Level executives (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies nationwide, rather than third-party accounts from unknown authors and analysts.
