David Pressman Attorney, Richard Stim Attorney : Nolo's Patents for Beginners: Quick Legal before purchasing it in order to gage whether or not it would be worth my time, and all praised Nolo's Patents for Beginners: Quick Legal:

2 of 2 people found the following review helpful. Useful information - if you can endure digging it outBy Chuck StranahanThis book, unfortunately, is written by a patent attorney. The language and syntax, ipso facto, too often tends toward that legal gobbledygook spoken in law offices with the blatant intent of deliberately obfuscating rather than enlightening the uninitiated, in pursuit of collecting legal fees from those who are thereby bamboozled and intimidated . (See, I know some big words and convoluted sentence structures too - but enough of that.) There is some good information in this book, but it must be ferreted out, rephrased, stripped of the multitudinous layers of disclaimers, exceptions, distentions and bloviations to be of any practical value. Plain nouns and verbs, written to the point, would have done better. It seems that the book was written with the the underlying purpose of discouraging the reader from

finishing it - and instead, rushing to the yellow pages to look for a patent attorney. I'd like to see a quick and easy step-by-step, with a notion of what the patent office is looking for at each step, and keys as to where to go for further information. This book is both helpful and a headache - and I'm looking for another, but not by the same author. 3 of 3 people found the following review helpful. Nice quick reference, gets you started in the right direction. By Harry Moore Nice quick reference, gets you started with the process and the language/jargon of patents. It is helping me to patent my latest trombone case designs. Uses flowcharts and example to make the basic process clear. I am using the 8th edition of May 2015. This has the latest info.

A brilliantly clear and up-to-date patent guide Patent law is changing, and this bestselling primer on patent law has up-to-date information on the America Invents Act, the most important change to American patent law in two centuries. Packed with detailed information, Nolo's Patents for Beginners explains how to: document your invention acquire patent rights "read" a patent application understand how and why to make a patent search determine patent ownership find patent information understand international patent law decide whether to file a provisional patent Nolo's Patents for Beginners provides plain-English explanations of patent law, patent and invention resources and a glossary of patent terms. The 8th edition is completely updated to cover all changes in patent law and regulations, including the latest on filing for provisional patent status.

Will help minimize legal fees by preparing you to do what you can for yourself... - Dallas Morning News The ideal introduction to the patenting process. - Bookwatch About the Author San Francisco Patent Attorney David Pressman is a graduate of Penn State University (BSEE) and George Washington University Law School (JD) where he was on the Law . He has over 40 years of experience in the patent profession -- as a patent examiner for the U.S. Patent Office, a patent attorney in corporate and private practice, a university instructor, a columnist, and as author of the Patent and Trademark entries to the World Book Encyclopedia. His books have charted the path for over 300,000 inventors. Dave is also co-author of How to Make Patent Drawings Yourself (with Jack Lo), Patent Pending In 24 Hours (with Rich Stim), and Patents For Beginners (with Rich Stim).
