**David Pressman, Richard Stim : Nolo's Patents for Beginners** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Nolo's Patents for Beginners:

0 of 0 people found the following review helpful. Great book, FAST delivery, excellent price. By Maverick Great book, and priced right. I setup corporations as serve as a senior business consultant for attorneys and individuals alike, and each year but the NOLO and Entrepreneur publications to stay updated and for additional insider information. I find them easy to understand, and their information reliable. Laws, and procedures change, so it's important to update these books regularly. 0 of 0 people found the following review helpful. Five Stars By Customer excellent 33 of 34 people found the following review helpful. The ideal introduction to the patenting process By Midwest Book Review An impressive and "reader friendly" compendium of information and instruction Nolo's Patents For Beginners is the ideal introduction to the patenting process for novice inventors and entrepreneurs. Written in plain English, the reader is provided with up-to-date principles of patent law; shown how to properly "read" a patent application; shown the nuts

and bolts of patent ownership; informed what the inventor's social or economic status is irrelevant; learn how to analyze and resolve patent disputes; what patents don't inherently provide "defensive" protection; and what the fundamentals of international patent law are. Nolo's Patents For Beginners is a highly recommended addition to personal, professional, academic, corporate, and community library reference patent law collections.

Do you toil away in an office, garage or basement lab in the hopes of bringing a new widget to life? What will you do when it's alive and kicking? Here's the primer every first-time inventor needs. Packed with plain-English explanations and step-by-step instructions, Nolo's Patent for Beginners defines clearly and simply what a patent is and why you need one. The book shows you \*how to document an invention for maximum protection \*how to tackle the time-and-money-saving, patent-searching process \*the patent application process \*who owns a patent \*how to avoid patent infringement The 3rd edition is completely updated and revised to reflect current law and court rulings, including the Supreme Court's decision in the controversial "Festo" case. Nolo's Patents for Beginners is a must-have reference book for inventors, educators, entrepreneurs, students, and business people who must deal with and understand patent law.

An impressive and reader friendly compendium of information and instruction... the ideal introduction to the patenting process. -- Bookwatch Will help minimize legal fees by preparing you to do what you can for yourself... -- Dallas Morning News About the Author Attorney David Pressman has over 30 years of experience in the patent profession -- as a patent attorney, a patent examiner for the U.S. Patent Office and a university instructor. He is the foremost expert on the patent-filing process and has charted the path for over 100,000 inventors. His book, Patent It Yourself, is the most highly recommended guide to patenting an invention. David is co-author, with Fred Grissom, of The Inventors Notebook and, with Patent Agent Jack Lo, of How to Make Patent Drawings Yourself. Rich Stim is a graduate of the University of San Francisco School of Law where he studied intellectual property law. He practices law in San Francisco, specializing in intellectual property and licensing and is an adjunct professor at San Francisco State University. He is the author of Music Law: How to Run Your Band's Business, License Your Invention and Getting Permission: How to License and Clear Copyrighted Materials Online Off (all published by Nolo.com); as well as Intellectual Property: Patents, Trademarks Copyrights (West).
