LLC Celebration Bar Review : NY Multiple Choice Questions Book before purchasing it in order to gage whether or not it would be worth my time, and all praised NY Multiple Choice Questions Book:

I ordered it for my Kindle Touch and found it very difficult to navigate. The table of contents provides page numbers but there's no way to navigate to a specific page. You can navigate to a location but there's no guidance as to what content is at any specific location. Therefore, if you want to jump to say the "trusts" section, you have to page through all of the other content slowly enough that you'll see the heading you want without noticing any answers to questions. Not sure if this issue is limited to my admittedly older kindle but it certainly wasn't worth the price for me. Returning.0 of 0 people found the following review helpful. Many great explanations in this bookBy Raymond PalmerKind of outdated and a little bizarre, but when you are studying for the NY Bar you need every resource at your finger tip and this really helped my understanding of a lot of NY law specific issues that BarBri either skipped or explained poorly. Many great explanations in this book. I would start this book 4-5

weeks out before the bar. 1 of 1 people found the following review helpful. Great NY BAR study book By Ziba99 Perfect book to study for NYS BAR Multiple Choice questions (NY part). Questions in this book are much harder than the one that you will see on the BAR. If you can manage this book you will be OK on the actual exam. Good luck :) P.S. I pass.
