On page 19, I believe, you mention that the Constitution was not "signed into law" until after the Bill of Rights was included. That is technically incorrect. The Constitution was ratified on June 21, 1788 when New Hampshire became the 9th of the 13 states to vote for ratification. Virginia and New York

also ratified in that year. The first Congress under the new Constitution was convened on March 4, 1789. The 12 amendments that ultimately became the Bill of Rights were approved by the House and Senate in September of 1789 but only 10 were ratified by the States in December of 1791. The last states to vote to ratify the Constitution itself were North Carolina (November 1789) and Rhode Island (May 1790), and by that time it was obviously a moot point. So while most of the states demanded a Bill of Rights as a condition of ratification, the Constitution was ratified and in effect well before they were passed by the Congress and ratified by the States...and only two states withheld their ratification of the document until the Bill of Rights was approved by Congress...but not ratified by the States to become law. Nitpicking words, maybe...but that is what those who wish to mutate our Constitution into their own meaning do all the time, so we must be precise ourselves. ;-)

By Phil Easton An amazing read from beginning to end. Very well put together. What I like the most is how direct and to the point it was written. It reminds the reader of what the oath means and why it is so important. It reminds us that no one man is bigger than the constitution and for those of us who have the ability have the responsibility to support and defend the constitution against all enemies foreign and domestic.

This book is a call to return to our American roots; to remember our heritage and birthright. Most importantly, it is a reminder that our oaths are binding, and we have a responsibility to ourselves and our posterity to honor them. Douglas Hogan writes in a style that is both direct and candid. No words are minced; there is no beating around the bush or tip-toeing through tulips. Douglas says what he means, and his incredible passion is ample evidence that he means what he says. This book is a must read for anybody that has sworn an oath to uphold the Constitution of the United States. You are OATH TAKERS.

From the Author This book is dedicated to the American oath taker, wherever he or she may be. It was written for you, my brothers and sisters of the Oath. Our mutual pledge to this country and its Constitution is to forever uphold its truth that all men are created equal and are given natural rights. Our pledge to this ideal binds us and reveals in us the true character of America.
