Scot Ober : Ober: Kit 3: (Lessons 1-120) w/ Word 2010 Manual before purchasing it in order to gage whether or not it would be worth my time, and all praised Ober: Kit 3: (Lessons 1-120) w/ Word 2010 Manual:

7 of 7 people found the following review helpful. REALLY IMPORTANT!!!!!!By Jazzy77This kit comes with an online software registration card. When you enter the code the letters will appear as capitals even though you are not hitting the shift key. It will tell you the code is invalid, but all you have to do is turn the caps lock on and enter it again. Make sure you try this before you buy a new code and waste your money.3 of 3 people found the following review helpful. AwesomeBy PamelaI could not find this book to purchase in the college bookstore so i decided to rent it through . It was the best thing I've ever done the book came to me new with the usable software key code that I needed to take my classes. Fellow students of mine rented their book from a campus bookstore and the software was used and the key code did not work they ended up having to pay additonal money for the software key code. I will rent all my books from in the future. I am a big customer and have been shopping from here for years.0 of 0 people found the

following review helpful. Excellent!!By ElviraThis kit was more than I expected! It came with the manual and the access code all for an excellent price. It arrived at the date it was said and most important It was a huge save of money since at the school the price was beyond \$250 I got the kit for less than \$100. I'm so glad I found this kit online it has helped me so much. Definitely recommended to everyone who wants to get better typing skills.

Gregg College Keyboarding and Document Processing (GDP), 11e by Ober, Johnson, and Zimmerly: Your complete learning/teaching system. Your guide to success. GDP/11 is an integrated keyboarding system designed to process and score documents created in Microsoft Word. Together, the book and software systematically lead students through each lesson to provide an easy path to success. As a solid product for over 50 years, this version of the GDP software has grown into an online functionality. The same program is now web-based with seamless updates to provide greater accessibility for use at home, in class, and in labs - perfect for distance learning! Strong enhancements to the book while maintaining key elements including integrated language arts (starting at lesson 21) support the cohesive program's strong content. Skillbuilding is reinforced with MAP+ (Misstroke Analysis and Prescription). MAP+ is an individualized, diagnostic tool that is built into the software to help identify student's strengths and weaknesses while providing prescriptive drills to help them practice where they need it most. Also, MAP+ now has new, unlimited drill lines that begin at Lesson 1. Additionally, GDP/11 automatically scores for keyboarding errors and now formatting errors too! As a result, instructors will appreciate the customization of course management tools in GDP/11, including the new GPS (Grade Posting System) which allows complete flexibility in setting up grades. GDP/11 your complete learning/teaching system. Your guide to success.

About the AuthorScot Ober (Ph.D, Ohio State) is a full-time consultant in business communication and document processing. Prior to his consulting career, Dr. Ober was Professor of Business at Ball State University. In addition to having taught Business Communication for over twenty years, he served as Editor of the Business Communication Quarterly for 1995 and 1996 and conducted an MBA-level Distance Learning Program through Ball State University.
