Gregg College Keyboarding and Document Processing (GDP), 11e by Ober, Johnson, and Zimmerly: Your complete learning/teaching system. Your guide to success. GDP/11 is an integrated keyboarding system that cohesively lead

students through each lesson to provide an easy path to success. As a solid product for over 50 years, this version of the GDP software has grown into an online functionality. The same program is now web-based with seamless updates to provide greater accessibility for use at home, in class, and in labs - perfect for distance learning! Strong enhancements to the book while maintaining key elements support the cohesive program's strong content. Skillbuilding is reinforced with MAP+ (Misstroke Analysis and Prescription). MAP+ is an individualized, diagnostic tool that is built into the software to help identify student's strengths and weaknesses while providing prescriptive drills to help them practice where they need it most. Also, MAP+ now has new, unlimited drill lines that begin at Lesson 1. GDP/11 automatically scores for keyboarding errors. As a result, instructors will appreciate the customization of course management tools in GDP/11, including the new GPS (Grade Posting System) which allows complete flexibility in setting up grades. GDP/11 your complete learning/teaching system. Your guide to success.
