Julie Schechter : Off the Charts Law Summaries: An All-In-One Graphic Outline of the 1L Law School Courses before purchasing it in order to gage whether or not it would be worth my time, and all praised Off the Charts Law Summaries: An All-In-One Graphic Outline of the 1L Law School Courses:

2 of 2 people found the following review helpful. there is no other study aid like it. Most study aids either confuse youBy C.BUY THIS! there is no other study aid like it. Most study aids either confuse you, teach you something professor does not agree with and or are so much reading it is as if you have an additional text book. This has straight forward examples, charts and is a must have item for law students especially first years. Also it's one of the only supplements that breaks down and compares MPC to Common Law-in crim section of book .1 of 1 people found the following review helpful. Great Review book for Major Law School TopicsBy Priyanka VermaThis is a great review book for law students. The charts make it easy to understand information that can be sometimes hard to understand in

casebooks, especially for first year students. And it is formatted in an easy to read way. Making charts helps put information together in a concise way. I also love the way how important sections of the MPC, FRCP and the UCC is given in the beginning of each section, and how the author compared the MPC with Common Law. The best part is the examples the author provides which are similar to the cases in the casebook. Having examples is a great way to learn. Overall, a great supplement to review topics in a concise manner. 1 of 1 people found the following review helpful. So thankful for this book! By Nicole L. In addition to being useful for getting through your first year of law school and for exam preparation, these charts are also helpful DURING exams. Law students are allowed to bring notes and books into their exams, but are so pressed for time during their finals that they rarely rely on them. The charts in this book are the perfect solution to this problem because they present the information concisely in a format that makes the retrieval of information so much faster and easier. Plus, each page is perforated so the charts can be easily removed and added to a student's materials for use during an exam.

The only law school study aid comprised solely of charts, *Off the Charts Law Summaries* contains a new layout designed to communicate information in a uniform, easy-to-understand format that graphically conveys relationships and patterns. Students learn the specifics of statutes, rules and cases faster than with the current text or outline materials and will more easily see how each fits into the broader subject matter. All five fundamental law school subjects—Civil Procedure, Contracts, Property, Torts and Criminal Law—are covered in a single, comprehensive and cost-effective volume that is portable, convenient and also useful for bar exam preparation.

About the Author Julie Schechter graduated from the University of Maryland, College Park with a degree in Criminology Criminal Justice and went on to receive her Juris Doctor from Brooklyn Law School. Ms. Schechter is a practicing attorney admitted to practice law in the state and federal courts of New York. Ms. Schechter is currently practicing as an attorney at Montgomery, McCracken, Walker Rhoads, LLP.
