Brian J Stephens : Only Morons Say "No Comment" before purchasing it in order to gage whether or not it would be worth my time, and all praised Only Morons Say "No Comment":

0 of 0 people found the following review helpful. It's not only fun to readBy CustomerBrians "Only Morons Say No Comment workshop is a brutally honest, clever guide to dealing with everyday crises communications, both delivering practical rules for crises and telling stories of some of the nation's biggest flops and inspiring successes. It's not only fun to read, but it's educational and really gets you rethinking about what a business crisis really is. I most enjoyed the section on 5 ways to connect. I'd recommend this book to any CEO, business or communications professional out there!0 of 0 people found the following review helpful. Not JUST a crisis book!!!By MelissaThis book is not just for

people dealing with a crisis! There are a lot of real-life, practical examples that I can use in my company for normal day-to-day operation. I really enjoyed the 3-2-1 message points because you can use them in any type of situation. Overall a really great book for companies that deal with challenges in the workplace. 0 of 0 people found the following review helpful. Great insight By chris gammill Great insight from a guy who's been there and done it! Brian has a great way of boiling the complex down to its core. Wisdom well worth the price.
