Not what I wanted...By Angie KinnebergI bought this book after getting a new job because I was looking for something to refresh my memory on what I learned in my legal studies classes. However, I was looking for more info regarding things such as Civil procedure and legal processes and this book doesn't offer much in that aspect. There are few things in it that are helpful, but overall, it just wasn't what I was looking for. It may be more helpful to someone who is still in college for legal studies or someone that managed to

land a paralegal job without a degree or much experience.0 of 0 people found the following review helpful. One

The number of paralegals is expected to grow by over 75 percent during the coming decade--and here's the book that
all of these hard-working professionals will want to own. Packed with valuable inside information, it covers the full
range of research and investigative assignments that paralegals perform regularly.
