Parental Alienation: The Handbook for Mental Health and Legal Professionals is the essential how to manual in this important and ever increasing area of behavioral science and law. Busy mental health professionals need a reference guide to aid them in developing data sources to support their positions in reports and testimony. They also need to know where to go to find the latest material on a topic. Having this material within arm s reach will avoid lengthy and time-consuming online research. For legal professionals who must ground their arguments in well thought out motions and repeated citations to case precedent, ready access to state or province specific legal citations spanning thirty-five years of parental alienation cases is provided here for the first time in one place. Includes: Supplemental Reference Guide on CD-ROMCarefully vetted reference material in the behavioral sciences and in law has been included on a separate CD-ROM found at the back of the book. This is very important material, and the authors have spent over two years gathering these sources, researching over two thousand U.S. and Canadian cases citing to parental alienation and have chosen more than five hundred cases in which an expert testified about parental alienation, the judge found parental alienation or both. Each of these cases has been described in a very brief memo drawn directly from the case and in a carefully checked exact legal citation. The book is also interspersed with vignettes of actual cases to offer practical significance through-out many chapters and to complement the presentation. It is the basic text for mental health and legal professionals, and the how to aspect of the Handbook will be invaluable to the lay reader as well.
