World Bank ... and Socially Sustainable Development:

The theme for the fifth annual Environmentally and Socially Sustainable Development Conference was the scientific, legal, and economic requirements of global ecosystem management. This volume presents readings and examines the outcomes from this conference. The objectives were to engage external experts and Bank managers and staff; to provide a unique opportunity for major professional groups to interact on the requirements to link scientific, economic, and legal solutions for global ecosystem management at the country level; and to promote understanding as to how best practice and innovations can be used for shared ecosystem management in sustainable development planning.
