**Edward Manzo : Patent Claim Construction in the Federal Circuit, 2013 ed** before purchasing it in order to gage whether or not it would be worth my time, and all praised Patent Claim Construction in the Federal Circuit, 2013 ed:

Patent Claim Construction in the Federal Circuit is a concise, handy reference that collects caselaw dealing with every aspect of patent claim construction by the Federal Circuit. This book presents the cases decided in the past year on each point, as well as relevant earlier cases, and is a resource for everyone who has to know or give an opinion on what a patent covers, including: New lawyers and seasoned litigators; Jurists; Federal judges; Patent litigation attorneys; In-house counsel and Patent prosecutors.
