Robert Pearce, Warren Barr : Pearce Stevens' Trusts and Equitable Obligations before purchasing it in order to gage whether or not it would be worth my time, and all praised Pearce Stevens' Trusts and Equitable Obligations:

0 of 0 people found the following review helpful. Three StarsBy Customerslightly bent on the sides but overall condition was good!

Written in a fresh and lively style and supported by a strong analytical framework, the sixth edition of Pearce Stevens' Trusts and Equitable Obligations continues to provide students with a relevant and exciting examination of a subject that can seem remote and difficult.The authors take a modern and conceptual approach to the wide array of topics

covered in undergraduate equity and trusts modules, helping students explore the many ways trusts impact on every day life and in the world of finance and commerce. The text is accessible without compromising detailed critical comment, and engages with key issues such as the protection of privacy, enforcing informal promises, trusts and the family home, and assessing public interest in charities. Online Resource CentreThe text is accompanied by an Online Resource Centre containing updates and a glossary of terms for students. For lecturers the site provides a test bank of multiple choice questions and PowerPoint slides to use in teaching.
