**From CRC Press : Pediatric Life Care Planning and Case Management, Second Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Pediatric Life Care Planning and Case Management, Second Edition:

0 of 0 people found the following review helpful. Five StarsBy andrew garlisiGood review for life care planners0 of 0 people found the following review helpful. ExcellentBy RichmondAn excellent and well written book by one of the top people in this field. Highly recommended to people in all professional and service delivery areas who are working

with children. It is not just for case managers and life care planners. 0 of 0 people found the following review helpful.  
Five Stars  
By Kendra Frederick  
The book was in great condition. Brand new.

*Pediatric Life Care Planning and Case Management* provides a comprehensive and unique reference that goes beyond the clinical discussion to include legal and financial aspects, life expectancy data, and assistive technology. It also includes case samples of actual plans related to specific conditions. The book is divided into five parts: *Normal Growth and Development of Children* describes the normal growth and development and the cognitive and psychosocial development of children. *The Roles of the Life Care Plan Team* details the roles of members of a life care plan team, from the pediatric care manager and life care planner to the vocational rehabilitation consultant, among others. *Chronic Conditions and Disability States* offers guidelines for life care planning for children with a wide range of chronic health conditions and disabilities, including traumatic injuries and organ transplants. *Forensic Considerations* examines life care planning in legal cases, life expectancy issues, and life care plan foundation strategies and requirements. *Special Issues* discusses assistive technology, medical homes, funding sources, and ethical issues in caring for children with special needs including a mother's perspective on caring for her son. With contributions from highly respected professionals, this text provides a guide for life care planners, health-care professionals, education specialists, insurance decision makers, attorneys, and families who work with children with special health-care needs.

**About the Author** Susan Riddick-Grisham, RN, BA, CCM, CLCP, has a private case management and life care planning practice and is the founder of the Care Planner Network, a nonprofit organization. In 2006, she received the Lifetime Achievement Award from the sponsors of the annual International Life Care Planning Symposium. Laura M. Deming, MS, RN, PNP-BC, CCM, CLCP, is a practicing pediatric nurse practitioner with a consulting business that includes life care planning services. She received the Case Management Society of America's Award of Service Excellence in 2004. Laura is also the mother of a pre-school child with special needs.
