**Paul Haskell : Preface To Wills, Trusts and Administration (University Treatise Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Preface To Wills, Trusts and Administration (University Treatise Series):

0 of 0 people found the following review helpful. If the teacher refers to it - buy it, worth the extra money to have Trusts/Estates explained in a simpler way  
By DMacNulty  
Items arrived appropriately packaged, on-time, and brand new as described on the website. Was not widely used or reference for the teach, so not of significant value for me, but other in school have said this book is extremely helpful  
4 of 4 people found the following review helpful. wills, trusts, and administration.  
By John H.  
I purchased this book at the recommendation of a Law School professor for a class. It is intended as a supplementary text. The book is unusually clear and concise for a law school book. It is almost an enjoyable read. If you are in need of a very well written book on the subject of wills and trusts, I would highly recommend this book.  
0 of 0 people found the following review helpful. Another book  
By Brandon  
It's fine but was required and repetitive of our other book....helpful overview though if its your only book! Not worth it if you already have another main text.

Law students will find this textbook an authoritative introduction to probate law. Case studies, case notes, and examples illustrate points under consideration. Thought-provoking questions generate classroom discussion and hone students' legal reasoning. They'll also reap the benefits of the author's experience, insight, and expert commentary. Representative topics include the elective share, the premarital agreement, intestacy, and will substitutes.
