An easy to understand reference tool.By Mark GottliebKent's clarity to what can be a difficult topic to approach your "soon to be" or existing spouse is very helpful. The financial aspects of marriage need not be ignored like an unfortunate disease. Great Easy ReadBy Nancy FreshmanTeriffic easy read for both the novice and professional. Interesting anecdotes and perspectives from a pro. I would highly recommend this primer as a "must read" for anyone even thinking about their marital future.

Very few people understand what marital agreements are, how they work, when they are needed, and what they can and cannot do. Prenup/Postnup is the definitive book on prenuptial agreements and a lively and engaging read for both the layperson and the professional. Practical and scholarly, it includes both cases studies and guidance in the finer points of the law. Included are numerous sample legal forms, advice on how to choose the right attorney, and more.
