0 of 0 people found the following review helpful. Not a book, little informationBy Loretta LangerThis is not a book, it is a little pamphlet. Not much information here, just a lot of warningsbasically saying if you are not sure to get advice from a professional. At the end they promotepromote their law firm.

This book will help you learn how to GET THE BEST POSSIBLE OUTCOME IN YOUR DIVORCE! This book helps you navigate through the following issues: You want a divorce but dont know where to start. You and your spouse have agreed to separate, but cannot reach an agreement on how to divide your property and assets. Your spouse has abandoned you and/or your children. Your spouse has been physically abusive to you, and you have decided to get out of your marriage. Your spouse has cheated on you. What if we have kids? If youre separated and thinking about divorce, you may have already realized the following: EVERYONE (and I mean, everyone) has an opinion about your decision to leave your marriage. Some friends want to throw you a party, while others may be staunchly opposed. Personally, I am not a fan of divorce I think broken families are not Gods design. On the other hand, Ive been there, and have personal experience with divorce. Your emotions may be more complicated than you expected. You may be feeling relieved that you have made a decision to move on with your life, but no matter how strong you are, remember its ok to mourn the loss of what you expected for your marriage. Hold on tight, let the emotions run their course, hold dear to family and friends that care for you, and just keep stepping forward. There is no one-size-fits-all solution. What may have worked in one persons divorce case may not work for you. There are several factors involved in the outcome of your potential divorce, including the length of the marriage, whether children are involved, and sometimes even the circumstances leading to the divorce. Every case is different, and the details of YOUR particular case matter. Thats why I want you to take a look at this book. Im hoping it can help you navigate through this sometimes confusing process. This resource covers subjects such as: How to Get a Divorce in the State of VirginiaCommon Divorce MythsYour Property Rights Created By Marriage and DivorceBenefits of Using A Property Settlement AgreementAdvantages of Hiring a Family Law AttorneyKids and Divorce This Book is designed for you if you are thinking about divorce in Virginia. I hope this goes without saying, but just in case, here goes: Your decision to purchase this resource does NOT create an attorney-client relationship between us. This book does not contain legal advice, and EVERY case really is different.
