And the forms on disk make anyone who can use a word processor their own estate planner. Be aware this book is for individuals who work for a living and don't have complicated estates--they need a lawyer to solve their problems, not this book. But I bet 99% of the public could use this book and never see a lawyer. Very concise and instructive.0 of 0 people found the following review helpful. Great book!By iamfarwellFull of great information and samples. The fact that the documents are legal

in all 50 states is what sold me. Thanks.5 of 7 people found the following review helpful. no CDBy A CustomerThis edition does NOT include a CD. Based on other reviews, I had assumed that I would receive a CD with fillable legal forms.

This revised and updated version of the most critically-acclaimed guide to will preparation allows anyone to easily and quickly prepare their own legally-valid will.
