Allan H. Nelson : Probate, Wills, Trusts: Searching for Answers before purchasing it in order to gage whether or not it would be worth my time, and all praised Probate, Wills, Trusts: Searching for Answers:

0 of 0 people found the following review helpful. Informative, Insightful, HelpfulBy CustomerA very insightful book written in an easy-to-read manner. It taught me all I need to know about establishing a trust instead of having a will. His examples are to the point. the last part of the book has a few templates for writing a trust that are excellent. I recommend this to anyone and everyone - except attorneys. They stand to lose a lot of money if everyone reads this book!

My goal is to teach people how to avoid the pitfalls of probate by showing them how to draft their own Family Living Trust, and to teach the importance of a Living Will, a Special Power of Attorney, and a Pour-Over Will. The examples in the book are a compilation of stories and problems with probate, and do not relate to any one person or family.

About the Author Korean War Veteran Graduated with a BS Degree and a Master of Education Degree from the University of Utah. Taught in public schools for 27 years along with being a Learning Coordinator for 10 years. Established the Southern Utah Insurance School for renewing Insurance Licenses, which is ongoing.
