**Carl J. Mayer : Public Domain, Private Dominion** before purchasing it in order to gage whether or not it would be worth my time, and all praised Public Domain, Private Dominion:

1 of 1 people found the following review helpful. Public Mineral Rights GiveawayBy Scott CromarThis book is an excellent introduction to the travesty that is America's public mineral rights policy. Entrenched interests keep obsolete laws in place in order to benefit the mineral-political complex. Mayer and Riley do an excellent job explaining the roots of the existing law, as well as commenting about what an enlightened policy would look like.

Book by Mayer, Carl J.
