**From University of California Press : Public Health Law and Ethics: A Reader (California/Milbank Books on Health and the Public)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Public Health Law and Ethics: A Reader (California/Milbank Books on Health and the Public):

1 of 1 people found the following review helpful. Great Text!By cccI read this text reader for my Public Health Law class at Columbia. It's one of the few text books I've truly enjoyed reading. Gostin covers a wide range of topics and explores each from multiple view points. I highly recommend it!

This incisive selection of government reports, scholarly articles, and court cases is designed to illuminate the ethical, legal, and political issues in the theory and practice of public health. A companion to the internationally acclaimed Public Health Law: Power, Duty, Restraint, this collection encourages debate and discourse about how courts, scholars, and policy makers respond to the salient legal and ethical dilemmas. The excerpts and commentaries in the reader analyze the legal and constitutional foundations of public health, juxtaposing them with the emerging importance of public health ethics and human rights. The book offers a systematic account of public health law, ethics, and human rights in promoting the common good.Gostin provides thoughtful commentary on the field of public health and carefully explains the meaning and importance of each selection. Scholars, legislators, and public health

professionals, as well as faculty and students in schools of law, public health, medicine, nursing, government, and health administration, will benefit from the contemporary case studies covering a wide range of topics from bioterrorism to public health genetics.

About the Author Lawrence O. Gostin is Professor of Law at Georgetown University and Professor of Public Health at the Johns Hopkins University. He also serves as Director of the CDC Collaborating Center for Law the Public's Health. His publications include *Public Health Law: Power, Duty, Restraint* (California, 2000) and *Public Health and Human Rights in the AIDS Pandemic* (1997).
