**Jo Reddy, Howard Johnson : QA Commercial Law 2013-2014 (Questions and Answers)** before purchasing it in order to gage whether or not it would be worth my time, and all praised QA Commercial Law 2013-2014 (Questions and Answers):

Not American Commercial LawBy ix88Based on the description provided at the time of purchase, it was not apparent that this book does not deal with US Commercial Law. Rather it deals with English common law, a

bit of Hong Kong common law, and international commercial law (CISG). That being said, the book was essentially useless for me as a supplement since I was an American law student studying for a domestic commercial law exam. Substantively, the book is not very comprehensive and serves more as a general review or brush-up. It covers: Description and quality of Property and Risk, Nemo Dat Quod Non Habet, Making and Cancelling a Credit Agreement, Default and Termination of Credit Agreements, Connected Lender Liability, General Principles of Agency, Relationship with 3rd Parties, FOB Contracts, Cif Contracts. Also, one small gripe: 20% of the text in this book is pink to highlight key concepts or words. The pink color is not easy on the eyes. Commercial law supplements that I found useful for my commercial law exam were: Negotiable Instruments EE, Secured Transactions EE, and the Contracts EE.

Routledge QAs give you the tools to practice and refine your exam technique, showing you how to apply your knowledge to maximum effect in an exam situation. Each book contains up to fifty essay and problem-based questions on the most commonly examined topics, complete with expert guidance and fully worked model answers. These new editions for 2013-2014 will provide you with the skills you need for your exams by: Helping you to be prepared: each title in the series has an introduction presenting carefully tailored advice on how to approach assessment for your subject. Showing you what examiners are looking for: each question is annotated with both a short overview on how to approach your answer, as well as footnoted commentary that demonstrates how model answers meet marking criteria. Offering pointers on how to gain marks, as well as what common errors could lose them: Aim Higher and Common Pitfalls offer crucial guidance throughout. Helping you to understand and remember the law: diagrams for each answer work to illuminate difficult legal principles and provide overviews of how model answers are structured. Books in the series are also supported by a Companion Website that offers online essay-writing tutorials, podcasts, bonus QAs and multiple-choice questions to help you focus your revision more effectively.

"These books are brilliant! The QAs sound so similar to our real exam questions.. I would definitely recommend these to all students on the LLB and also for students refreshing their knowledge for the LPC" NEW GRADUATE JUST ABOUT TO START LPC "What a relief! A book I can understand quickly.. Ill be using these this year" SECOND YEAR UNDERGRADUATE "This is an excellent series, which hits the target at a remarkable number of levels. The clarity of its reference points makes it ideal for students new to undergraduate study, while at the same time being the perfect refresher book for students about to start on professional courses. More than that, the series is great as a starter pack for non-specialist students covering elements of law as part of their wider studies, and invaluable for teaching international students studying the English common law from abroad."
