There were some multiple choice questions, but there were a lot of open ended questions that left room for thought and some of the nuance of family law. The series is inexpensive and great for use in study groups. My group used this book almost exclusively when studying for Family Law because we all liked it so much. We all did a great job on the exam, so it did its job!0 of 0 people found the following review helpful. Five StarsBy AlexisThe book is not bad to have, especially if you need to practice your multiple choice.1 of 1 people found the following review helpful. Love QABY Elizabeth B BostdorffThis is my go to law school study guide! I love them and have saved them for the bar. YEAH!
