Basically the book is a guide for fathers in the Child support system. Here's the reality of this book. Men please, please don't become a victim of the system at the hands of a woman. In the USA the laws are made to benefit women and make slaves of men. Women are not bad people they just have the powers of the law on their side to damage a man in any situation and they will use it no matter how sweet they are. The USA is not the place the get married and have kids or even just have kids with a woman. Men Please, you have to learn now to protect yourself from women in the USA because this is a new serious force you're up against; You'll be fighting for your life to stay a free man out of prison. If you have boys as children you have to teach them now how to protect themselves and their financial future later in life. This book is only a guide but it is simply telling you the odds are against you if you are a man in family court.If you go to jail for unpaid child support or alimony of no fault of your own you will be put in jail with hard core criminals serving life sentences and

A Bible .A Life Saver.By Glenn RobertsonI definitely recommend this book.I read this book about a dozen times. This book is remarkable. It has helped me in family court. I had no clue what was going on in my case and my lawyer was either getting an adjournment and not speaking up when I thought he should be saying something. He was letting the mother get away with everything at my expense. I read this book and it made a difference in my case because I learned that I had a right to visit and that my kids mother could not get in the way and continue to deny me visits with my kid. I felt armed with the right stuff after reading this book. I was also able to put my lawyer straight.This book is a step-by-step guide that is easy to read and understand. Law and legal concepts are often confusing and hard to grasp without some legal background. Real Dads Stand Up is like a road map to maneuvering the court system. This book tells you what they don't want fathers to know about family court. This book is a must read for any father who wants to get active in their childs life.I like the sports analogies in the book. I could really relate to not knowing when to play offense or defense. I was stuck somewhere in the middle getting knocked over the head with the ball. My case got settled and my kids mother knows now that I know what should be going on in court. I was shocked after the about the third chapter when I really looked at the name on the cover and saw that this book was written by a woman. Wow! It was like she knew what she was talking about. She was standing up for fathers. I felt like I had an edge since this information was coming from an expert.It's about time. I learned that child support is not payment to see my kid. I also learned how to deal with the child support system. Ms. Crowe is truly a gem. After reading this book I restored my faith. Having this book was like having an angel on my shoulders whenever I went to court. I learned how to fight back and organize my files and what papers I needed. I now know how to deal with the court system. I sat and read this book and could not put it down for hours. Each chapter made me get stonger.I really liked the chapter on changing a child support order. At the end of the book there are court forms that are really helpful. This books walks you through when you get served with papers all the way to what happens at the hearing and after the hearing. It took my fear away.
