The only similarity between this and a law school CB is that it sometimes has actual case excerpts in it. In the author's attempt to come across as "casual" or "laid back," he strays right into the territory of "um...a professional actually wrote this?!" I'm halfway through the semester and have given up on reading it. Angry at myself for buying it.0 of 0

My Professor swears by it...By SomaSemaPsuchesMy Professor swears by it and likes it because of all of the problems in the book (some of which are pretty good) but besides the problems, it makes the topics much more boring than they should be. The book could definitely be organized better.0 of 0 people found the following review helpful. Five StarsBy Heitter SchillingExcellent book.
