William F. Doverspike : Risk Management: Clinical, Ethical, Legal Guidelines for Successful Practice before purchasing it in order to gauge whether or not it would be worth my time, and all praised Risk Management: Clinical, Ethical, Legal Guidelines for Successful Practice:

1 of 1 people found the following review helpful. Great read for all those in the mental health field By Bookworm This book was a great supplement for our Ethics class. It gives practical advice for real-life situations. I actually enjoyed it

more than the main text. If you want some good advice on achieving an aspirational level of ethical behavior, get this book. It is an easy read and gives great information presented in a well-organized format. 0 of 0 people found the following review helpful. These books were very helpful in my studies. Although ...By Customer These books were very helpful in my studies. Although the Issues and Ethics was offered online I prefer to have the books in front of me so that I do not have sit at my desktop. I was able to get a lot of information from both of them. 0 of 0 people found the following review helpful. Great College Book By Kagesama I needed this book for my college course, so far it's a great read and very helpful for my coursework.

I bought this book for a class and I dropped it. Brand new book.
