defend her own actions in mishandling the Rucki's defense. As someone who has followed both this case and Ms. McDonald's career, it is difficult to assess whether she is simply so personally entangled with mental/emotional defects that she is unable to mount a competent defense for her client (leading to such courtroom shenanigans as forcing her own arrest for attempting to photograph the proceedings in violation of court policy), or whether she simply recognizes her client's actions as being indefensible and therefore resorts to tricks and diversions. McDonald, Rucki and now Volpe have apparently done all that is humanly possible to ensure disruption of the lives of these children and their father. 1 of 4 people found the following review helpful. Following the Sandra Grazzini-Rucki case from Brooklyn NY for years. Judge Knutson is nuts and a domestic terrorist. Courts tell you to leave your abusers and in many cases incestualized child sodomizer-rapists, but courts don't tell you, you can't take the children with you. Sandra case is BOTCHED by judicial design same as millions of other mothers captured in this invisible White Slave Trade, there's so many books speaking out against the secret White Slavery and Motherless child operation that's happening to millions of White mom's and children "Worst Interest of the Child" by Keith Harmon Snow is another good book.

In this true crime story, it's the family court system that's criminal. Attorney Michelle MacDonald sues a Judge for violating mother, Sandra Grazzini-Rucki's civil rights, and the next day is forced to proceed with Sandra's child custody trial while "under arrest"--- in handcuffs, a wheelchair, with no shoes, no glasses, no files, and no client. And did we mention that the children had run away? Later, this mother of 5 with no criminal record is jailed with a murderer, the missing teens turn up after two years, and a history of violence and criminal activity by her dangerous ex-husband is ignored. Since her children were found, Sandra's tragic family story has received international attention. With he said/she said accusations and confusing terms like "parental alienation", the truth may seem difficult to reach. It's a story of domestic violence, family court corruption and a compliant media, including ABC's 20/20, covering up the whole sordid tale.
